

**TERRA NOVA
STEEL & IRON INC.**

CANADIAN DISTRIBUTOR

CANADIAN DISTRIBUTOR

Dura-Bar continuous cast iron bar is engineered to excel during machining and to consistently outperform alternative materials.

Dura-Bar lowers the total cost of machined component parts. They are manufactured in ductile or grey iron, in a variety of shapes: round, square, rectangular, half-round, oval and others that, made upon request, may be very close to the final part geometry.

As raw material for transformation, the bars are supplied to several industrial segments.

AMPCO METAL is an integrated metal producer that offers a wide range of premium specialty bronzes and copper alloys. Ampco Metal provides exceptional physical and mechanical properties.

Terra Nova Steel & Iron is proud to be the Master Canadian Distributor for AMPCO METAL.

BRONZE

Terra Nova Steel & Iron also carries multiple grades of Bronze Bar to meet your needs. Including our most popular stock 954 as well as SAE 660 Bearing Bronze.

CANADA'S LARGEST RECTANGLE FROM STOCK!

In 1984, Terra Nova Steel & Iron began in Mississauga. Specializing in the distribution of continuous cast iron bar and ductile iron bar in various shapes and grades. We are proud to distribute Dura-Bar Continuous Cast Iron Bar Stock. We are also Master Distributors for Ampco Metal.

Warehousing the largest inventory in Canada, we have since expanded our product line, including continuous cast bronze bar in various alloys including C63000 or AMS 4640 extruded and drawn, C954 Aluminum Bronze and C93200 – SAE 660 Bronze.

In addition to our outstanding Cast Iron and Bronze offerings we are now proud to offer Brass to our valued customers, available in C360, C464 grades.

CUTTING & MACHINING

Our 12 band saws provide a variety of processing capabilities, ranging from a single cut to large quantity production runs.

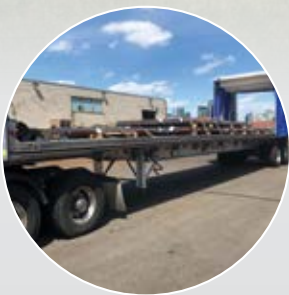

Utilizing our just-in-time supply program we can supply on-time every time. Our plate saw allows us to supply custom saw cut cast iron and bronze plate to meet everyone's needs.

NOW STOCKING BRASS

As an industry leader in the distribution of Dura-Bar® Continuous Cast Iron and Bronzes we are adding Brass Bar (360 Brass) as a New Stocking Item to better service our customers. Our Brass is available in multiple grades including C360, C464 in Rod, Hex and Rectangle formats.

TERRA NOVA STEEL & IRON INC. Is also proud to offer delivery within the Greater Toronto area. Large or small orders, we are happy to make sure your order arrives as quick as possible.
